ABOUT ME

Adaptable and detail-oriented developer with experience working in agile environments and collaborating with cross-functional teams. Passionate about building reliable software, improving user experience, and continuously learning new technologies.

EXPERIENCE

Silstech, QA Automation Engineer

February 2022 - March 2024

Developed and maintained automated end-to-end tests using Cypress and JavaScript, improving software quality and testing reliability. Performed functional and exploratory testing, reported bugs, and collaborated with agile teams to ensure stable releases and efficient QA workflows.

Freelance, 2022 - Present

Key Clients: Arzani, SKF, Tribylab and independent businesses

Developed and deployed responsive web applications for independent clients using modern JavaScript technologies. Worked with REST APIs, authentication systems, scalable frontend architectures, and production deployments while focusing on usability, performance, and clean development practices.

ACADEMIC FORMATION

Soy Henry, Argentina Full Stack development

Bootcamp, +800 hours of hands-on coursework 2022.

Icaro, Basic Full Stack development course 2022.

Argentina Programa, Full Stack
